Atlantic County Veterans Museum
Reconstruction to be completed in 2016

“In Atlantic County our veterans are revered. We believe a museum is not only a fitting tribute to our courageous military heroes, but it will also serve as a wonderful educational resource for our youth as well as visitors of all ages and from all areas of the county and perhaps beyond.”

- County Executive Dennis Levinson -

The county has offered the use of the historic Daniel Estell House to house the museum. It is the former home of Rebecca Estell Bourgeois Winston, the first mayor of Estell Manor and the first female mayor in New Jersey.

The house was built in 1832 by Winston’s grandfather and remodeled to its present Colonial Revival style by Winston in the 1920s. The house was purchased by the county in 1993 but had remained unoccupied. It required structural improvements and renovations to meet current requirements.

In 2013 County Executive Levinson appointed former County Executive Richard E. Squires to serve as chairman of the Veterans Museum Committee that includes veterans, historians and community members to assist with gathering, researching and accessioning artifacts and materials that will become part of the collection of the new museum.
