Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

An audit of the Atlantic Youth Center Harborfields (AYC) facility in Egg Harbor City, New Jersey was conducted on March 20-21, 2019 by Candy Snyder, a certified PREA auditor, and assisted by Mark Snyder, an auditing assistant. The AYC posted the audit notice six weeks prior to the auditor's arrival. In addition a flash drive was provided to the auditor with the completed pre-audit questionnaire.

An entrance meeting began with facility staff Assistant Superintendent and PREA Compliance Manager, Rochelle Andress and PREA Compliance Manager in training, Karli Moke. The Superintendent has been on extended leave and was not available to be interviewed. Ms. Andress is currently training Ms. Moke to assume the role of PREA Compliance Manager.

Following the entrance meeting they accompanied the audit team on the facility tour. The auditor then began interviewing specialized staff. Private accommodations were made for the auditor to conduct interviews. The auditor was not limited in any way from speaking with staff or youth or inspecting any area of the facility. The auditor interviewed staff from all shifts. All staff were extremely polite and accommodating throughout the audit. AYC is a small facility and key staff hold multiple positions.

The auditor conducted a review of the application and hiring process. Criminal background checks and Child Abuse Record Information (CARI) checks were randomly selected by the auditor and reviewed. There were two administrative investigations reviewed. Both incident were regarding inappropriate comments and were determined to be unfounded. Both investigations reviewed were handled appropriately and per the standards.

Ms. Andress provided a copy of the staff schedule. The auditor randomly selected eleven (11) staff and conducted interviews of staff covering all shifts, varying degrees of longevity, diverse job classifications and staff who worked within varying areas of the facility. The auditor asked specialized questions of those line staff that perform screenings, perform searches, who are first responders, and staff who conduct the intake process.

The auditor completed interviews of all residents at the facility -- ten (10) youth with varying lengths of stay and youth from all housing areas. There were no residents who were limited English speaking to be interviewed. The auditor interviewed a youth with a suspected learning disability. There were no youth who identified as LGBTI. The auditor interviewed a youth involved in a sexual harassment investigation. The facility states that it does not use isolation for protective custody and this was confirmed through direct observation and through interviews.

An exit briefing was held with the facility the Assistant Superintendent and the PREA Compliance Manager. The auditor provided a preliminary finding of each standard with the caveat that this was subject to change as the auditor continued to review documents, may have questions to be answered and prepares the report. The auditor thanked the Superintendent and the PREA Compliance Manager for their hard work and their continuing commitment to follow the Prison Rape Elimination Act and most importantly, their dedication to and caring for the youth under their charge.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Atlantic Youth Center (AYC) facility is located in Egg Harbor City in Atlantic County, New Jersey. The facility is comprised of one building and a secure, fenced-in outdoor recreation area. The building consists of administrative areas, intake area, dining room and kitchen, education area with classrooms, and three housing units—two for male youth and one for female youth. The boys units have sleeping rooms with bunk for two youth per room. However, they typically sleep individually. The girls unit has two rooms, one that sleeps three and one that sleeps four, a dayroom and a single shower and a single restroom. All youth shower singly. There is a gymnasium for indoor recreation and an exterior fenced in recreation area. Throughout the tour of the facility the auditor noted PREA posters and the required posted Audit Notice.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Atlantic Youth Center (AYC) Policy 5.14 Prison Rape Elimination Act (Revised 01/16) is a very thorough policy that follows the PREA standards adding specificity applicable to AYC. The policy establishes a zero-tolerance of all forms of sexual abuse and sexual harassment and thoroughly defines PREA protective measures and response. The Assistant Superintendent has filled the role as the PREA Compliance Manager until recently. The Superintendent has been on an extended leave of absence and the Assistant Superintendent has been carrying out those duties as well. The Assistant Superintendent has been training the Social Worker to assume the duties as the PREA Compliance Manager.

The AYC is under a unique, blended authority arrangement between the Atlantic County Administration and the State of New Jersey Juvenile Justice Commission (NJJC). The NJJC PREA Coordinator oversees PREA Compliance. The NJJC requires the AYC be evaluated during the annual review of the Manual of Standards for Juvenile Detention Facilities. Both the previous PREA Compliance Manager and the newly appointed PREA Compliance Manager have the authority to develop, implement and oversee the efforts of the facility to prevent, detect, and respond to sexual abuse and sexual harassment.

The Assistant Superintendent/PREA Compliance Manager had the most organized preparation for the audit that this auditor has experienced. There was a file for each standard that included the standard, the applicable AYC policy and all documented evidence necessary to verify compliance with the standard. The staff and residents were well trained. There were two very well done bulletin boards with PREA information prominently displayed. It was apparent that she puts a lot of effort into her PREA compliance duties. The PREA Auditor with the NJJC held preparatory meetings for several months prior to the audit to ensure that compliance was being maintained and ensured that all of the personnel files from the NJJC office in Trenton was at the site and ready to be reviewed.

The facility does not conduct cross-gender strip searches, cross-gender pat-down searches or cross-gender visual body cavity searches. This was verified through interviews with both staff and youth. The facility has a method of recording exigent circumstance in a log in the event of an emergency in which to document a cross-gender search.

Entering each housing area is a posted sign “Opposite Gender Announcement Zone”. Staff announce their presence when entering the housing area of youth of the opposing gender. The PREA Compliance Manager conducts the screening for all incoming youth. The screening documents are maintained locked and secured with the Compliance Manager's office. If a youth, through the screening process, is determined to be susceptible to victimization or perpetration of sexual abuse, this is shared with staff only to the extent necessary to provide for the well being of youth. The auditor reviewed the screening tool and randomly selected youth files to review to ensure that screenings are complete.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

AYC makes placement decisions based on all information obtained to make housing, bed, program, and education assignments for residents with the goal of keeping all residents safe and free from sexual abuse. The Social Worker meets with youth daily to ensure they are doing well. Staff showed genuine care and concern for the youth and this was very evident during the youth interviews and observations of their interaction.

The comprehensive AYC PREA policy prohibits the placement of youth into a facility, assignment of roommate, education and work assignments based on LGBTQI status. Policy allows for placement of LBGTQI youth in room restriction, temporary close custody or a Behavior Accountability Unit as a means of keeping them safe only as a last resort. The facility takes into account the concerns of a transgendered or intersex resident's own views with respect to his or her own safety. Those views are given serious consideration and this was demonstrated through the interviews of staff. All youth shower separately at the facility. The facility indicates through interviews that they will consider on a case-by-case basis assignment to a living unit that will ensure the resident's health and safety, and whether the placement would present management or security problems. Facility procedure is to manage a resident's room placement rather than using isolation as a means for protecting the resident's safety.

Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

AYC provides multiple ways for residents to privately report sexual abuse and sexual harassment, or retaliation. Youth speak with the Social Worker often and have ready access to her. They can write a grievance. There are PREA reporting forms and boxes throughout the facility. They can place calls directly through their GTL phone system or receive assistance from the Social Worker to place calls. They can call multiple people to report sexual abuse -- the JJC Ombudsman, parents or guardian, DCP&P, Avanzar or their lawyer. They can speak with the nurse privately at any time by simply making the request. They also can speak with the Superintendent by making the request to any staff. They have access to report outside of the AYC and JJC by calling the DCP&P Abuse hotline number 1-877-NJ-ABUSE. Their phone system is set up to dial a code *3237# for NJ Abuse and *9050# to connect to NJ CASA, the NJ CASA from the dayroom and the call was mistakenly routed to a rape crisis center in Oregon. The auditor recommended that they substitute the NJ Abuse line with the direct number to their local rape crisis center, Avanzar to avoid the error in the future. The Assistant Superintendent had the number reprogrammed by the end of the day to the direct dial number. Also there are posters posted throughout AYC and the information is in the youth handbook.

Youth reported feeling very comfortable reporting directly to their staff or another person within the facility. They reported there is a grievance process available, but no one really uses it. The staff accepts reports made verbally, in writing, anonymously, and from third parties and promptly documents any verbal reports. The facility provides residents with access to tools necessary to make a written report. Youth were very well versed in all the reporting methods, what each agency provided or could assist them with and were aware of mandatory reporting laws and what the processes would be if they contacted one of these service providers. This was probably the most well-versed group of youth that this auditor has interviewed.

- If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time [the maximum allowable extension of time to respond is 70 days per 115.352(d)(3)], does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? 115.352 (f)

- Has the agency established procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- After receiving an emergency grievance alleging a resident is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.)

AYC has an MOU with the Avanzar (Formerly the Atlantic County Women's Center). Many youth stated they know that services are available for counseling and that there are posters everywhere. Some youth stated that they know they can contact The Women's Center, but would probably just speak to their counselor.

AYC provides youth with reasonable and confidential access to their attorneys and parents. In addition, all youth interviewed reported that they had contact with their families regularly. If the youth is involved with the Department of Children and Families, they may already be assigned a Care Management worker who assists them in
