THERAPY STABLES

“A place where Veterans and Horses connect and communicate”

Our mission is to provide an Equine Therapy Facility to active service members, Veterans and their families to help manage PTSD and to minimize the suicide rate among our military families. Sessions are free for veterans. Veteran owned Chestnut Run Farm has twenty-five acres of maintained trails and pastures in Mays Landing. Our stables allows a veteran to connect through bonding, therapeutic grooming and handling our horses, goats, ducks, and chickens. We are **not** a riding facility. Learning to groom and take care of a horse is a very rewarding and confidence building experience. After an initial walk through with our Equine Specialist, the veteran learns the barn rules, horse safety, and body language. This experience further allows the veteran and horse to connect and communicate..

We are a NON PROFIT 501 © (3) Corporation
